I had severe pain in my left lower back, hip, and leg. After a few visits most of my pain was gone. After 3 weeks I am mostly pain free. I received excellent care, great advice, everything worked harmoniously and I feel and look 100% better. Worth every penny of the cost.

I am now continuing with weight loss and feel I will have success with my goals. My appetite has decreased, my sweet cravings are not there, I want to eat healthier foods, I am full with smaller portions. Highly recommend ACI Clinic, it has been a wonderful experience. Judy
